SEPTEMBER 2017 **DermatologyTimes[®]**

A **Device reduces fat in single treatment**
Cutera has launched truSculpt 3D, a non-surgical body sculpting device that offers up to 24% fat reduction in a single treatment. The device operates on a 2 MHz monopolar radio frequency and is able to reach the optimal therapeutic temperature at two minutes, according to the company. Over the course of a one-hour session, up to four areas on the body can be treated. The device will be available globally by the end of 2017.
FOR MORE INFORMATION: www.cutera.com.

B **App monitors UV radiation in real-time**
La Roche-Posay has released a companion app as a follow up to its product, My UV Patch, a stretchable skin sensor designed to monitor UV radiation in real-time. The new kid-friendly app is available on both iOS and Android and provides users with a comprehensible personalized report on UV exposure. The app also features simplified information, augmented reality, games and rewards targeted at younger users. The My UV Patch sensor changes colors to indicate the various levels of sun exposure. The patch will be free of charge when purchasing an Antheleos product from the brand's website.

C **Power Trio balances, rejuvenates, resurfaces**
The Clinical Power Trio from DefenAge works to rejuvenate and correct signs of aging through a three-step process. The anti-aging system contains a 2-Minute Reveal Masque to resurface the skin and minimize pores. The 24/7 Barrier Balance cream repairs skin and minimizes redness and age spots. The 8-in-1 BioSerum Balance Cream minimizes lines, wrinkles and age spots. A consumer survey reported improvement in up to 16 visible signs of skin aging in six weeks of use, the company says. The anti-aging system contains peptides as part of the company's Age-Repair Defensins ingredient found in the Trio.

D **Three nighttime skin products released**
Murad has released three nighttime products. The Retinol Youth Renewal Eye Serum and Night Cream feature Retino Tri-Active technology, which contain a fast-acting retinoid, a time-released retinoid, and a retinol booster. The Night Cream also uses peptide-rich, red algae extract to improve firmness and elasticity, the company notes. The Beauty RESTORE Sleep Oral Spray Dietary Supplement includes a blend of GABA and L-Theanine that aid in relaxation and improved sleep, according to the company. The company recommends six sprays to help complement the skin's natural overnight rejuvenation process.

E **Sarracenia-based OTC cold sore formula**
Aubio has introduced an over-the-counter cold sore product formulated with the carnivorous plant sarracenia. This plant that can cleanse itself of microscopic organisms and survive viruses and diseases often found in insects. Aubio for Cold Sore Treatment Gel also features the company's Advanced SuperBotanicals, a proprietary plant complex. A recent clinical study found that sarracenia extract showed anti-viral activity when included in a formula to alleviate symptoms associated with cold sores caused by the herpes virus (HSV-1), the company says. The product is available at most retailers throughout the United States.

F **Steroid-free topical manages SD symptoms**
ISDIN has introduced Nutraseb Facial Cream to manage the symptoms of facial seborrhea and seborrheic dermatitis (SD). The product is a steroid-free, fragrance-free, water-based topical formulated to target fungus, inflammation, scaling and sebum, the company says. In two clinical studies the topical has been evaluated for efficacy in the treatment of mild SD as well as cosmetic efficacy and cosmetic quality, both studies demonstrated that Nutraseb effectively manages symptoms of SD. The product has not been tested on subjects younger than 22 years old.
